

FULFIXER™

FULVIC ACID

NATURE'S ALCHEMIST®

Discover the Power of FULFIXER™ Fulvic Acid

FULFIXER™ Fulvic Acid is your gateway to enhancing your body's cellular processes naturally. Backed by over 1,600 studies, the benefits of Fulvic Acid are numerous and transformative.

SUSTAINABLY SOURCED AND PRODUCED

FULFIXER™ Fulvic Acid is derived from pesticide-free, timber-rich highlands in South Africa. Our proprietary organic digestion technique converts carbon molecules from plant material into short-chain carbons, producing high-quality Fulvic Acid. This process ensures no biological contamination, thanks to a heat sterilisation step before packaging, delivering a consistent and affordable product.

CERTIFIED PURITY AND QUALITY

We understand the importance of purity, especially for practitioners. FULFIXER™ Fulvic Acid is rigorously tested and certified to be free of heavy metals, pollutants, toxins, and contaminants. Certificates of analysis are available upon request, ensuring transparency and peace of mind.

WHY CHOOSE CAPSULES?

Liquid Fulvic Acid has a strong taste that isn't for everyone, and glass bottles are costly and cumbersome to ship. Our capsules provide a convenient, high-quality alternative, ensuring you effortlessly receive maximum benefits.

DOSAGE RECOMMENDATIONS

For optimal results, FULFIXER™ Fulvic Acid is best taken on an empty stomach in the morning, away from other supplements and medications.

If also taking FLORISH™ Spore Probiotic with Fulvic Acid: Since FLORISH™ Spore Probiotic with Fulvic Acid contains 300mg of Fulvic Acid, take 1 capsule of FULFIXER™ along with 2 capsules of FLORISH™ Spore Probiotic with Fulvic Acid to achieve a 450mg daily dose.

If only taking FULFIXER™: Take 3 capsules daily to achieve the recommended 450mg dose.

KEY BENEFITS OF FULFIXER™ FULVIC ACID

Powerful Antiviral Properties: A daily dose of 350mg provides an abundant source of electrons, reducing inflammation throughout the body.

Enhanced Nutrient Absorption: Increases cell membrane permeability for optimal nutrient uptake.

Efficient Detoxification: Transports nutrients into cells and removes pollutants and waste efficiently.

Boosts Supplement Effectiveness: Enhances the performance of vitamins and minerals.

Increases Energy and Vitality: Experience greater energy, well-being, and vitality.

Natural Electrolyte: Raises cellular voltage, contributing to cell health and combating cancer cell environments.

Immune System Modulation: Balances immune response, beneficial for both overactive and underactive immune systems.

Antioxidant Properties: Acts as a free radical scavenger, restoring oxidised supplements to their active forms.

Supports Enzymatic Reactions: Promotes enzyme development and cellular metabolic processes.

UNIQUE CELLULAR BENEFITS

Tiny Molecule Efficiency: Fulvic Acid operates within every cell, aiding nutrient facilitation, electrical contribution, and detoxification.

ADDITIONAL INFORMATION

Shelf Stable: No refrigeration needed, with a 5-year shelf life.

Disclaimer: FULFIXER™ Fulvic Acid is a natural food supplement. No medical claims are made or implied. The information provided is based on extensive studies and peer-reviewed research.
