FULFIXER™

FULVIC ACID

NATURE'S ALCHEMIST:®

Sebastian Siebert Supplements introduces FULFIXER™ Fulvic Acid capsules, a groundbreaking supplement designed to transform your health. "Nature's Alchemist", FULFIXER™ Fulvic Acid leverages the remarkable properties of fulvic acid, a powerful natural compound derived from ancient organic humic substances.

Fulvic acid is renowned for enhancing every cell and tissue in the body, much like an alchemist turning lead into gold. It boasts exceptional ion exchange properties and near-miraculous healing capabilities, surpassing the benefits of alfalfa nutrients and offering even more substantial health advantages.

Sustainably sourced from the rich, fertile soils of South Africa, our fulvic acid is extracted from ancient deposits that have formed over thousands of years. These deposits are rich in organic matter and trace minerals, ensuring a high-quality and environmentally friendly product. Our commitment to sustainable practices ensures that we preserve the natural environment while delivering the highest potency fulvic acid to support your health.

With over 60 years of research, fulvic acid has been proven to positively impact every biological system in both humans and animals. Dr. Kuhn, a leading medical supplement researcher, highlights fulvic acid's extensive health benefits, suggesting it could address the root causes of various health deficiencies. Its unique properties enhance and regulate the immune system, balance electrolytes, and support overall health, making FULFIXER™ Fulvic Acid an unparalleled supplement.

DESCRIPTION:

FULFIXER™ Fulvic Acid capsules are designed for optimal health benefits, each containing 150 mg of high-potency fulvic acid. The capsules are easy to swallow, and free from gluten, corn, yeast, fish or fish oil, starch, sugar, and other preservatives. They also contain no artificial flavours, colours, or sweeteners, making them suitable for a wide range of dietary needs.

DOSAGE:

Recommended Use (Daily: 3 capsules containing 150 mg Fulvic Acid)
3 Capsules per day (2-3 grams (preferably 2 in the morning before late afternoon))
Each capsule contains 150 mg Fulvic Acid (3 capsules per day = 450 mg)

When taking FULFIXER™ Fulvic Acid and FLORISH™ Spore Probiotic with Fulvic Acid please adjust your dosage down to two capsules as there is Fulvic Acid in the FLORISH™ Spore Probiotic formulation to be aware of.

SAFE FOR ALL AGES:

FULFIXER™ Fulvic Acid should be taken separately from other medications by at least 2 to 3 hours, as it acts as an amplifier for other medications and supplements. It should also be taken separately when combined with FLORISH™ Spore Probiotic to ensure maximum benefits.

INGREDIENTS:

Proprietary Fulvic Acid Complex
40% Water Soluble Carbon
30% Fulvic Acid
24.5% Ash
3.5% Calcium
2% Moisture

This unregistered medicine has not been evaluated by SAHPRA for its quality, safety or intended use.

NOTE:

- This product is free of gluten, corn, gluten, yeast, fish or fish oil, starch, sugar or other preservatives.
- No artificial flavour, colour or sweeteners.
- No sugar, starch or preservatives.

BENEFITS REPORTED INCLUDE:

- Increased energy.
- Strong resilience and faster recovery time for athletes and bodybuilders.
- Anti-oxidant that has a healing effect on the body through increased concentration and removal of toxins.
- Helps reduce symptoms associated with sickness recovery and alleviation of medical conditions.
- Improved uptake of oral minerals.

Note: As the alchemical benefits and features supported by the studies:

ALLEVIATION OF ALLERGIES:

According to Dr. Becker in Bangkok, fulvic acid has the unique glycosides from food, which he believes, acts as antihistamines and mast cell stabilisers. Thus, reducing allergies.

ALLEVIATION OF FLUORIDE TOXICITY:

Fulvic acid helps neutralise and inhibit the absorption of various toxins including fluoride. By forming molecular complexes, fulvic acid prevents the poisoning of enzymes and essential minerals needed for health. Furthermore, it is a powerful antioxidant and free-radical scavenger which helps to reduce oxidative stress in the body, further reducing the negative impact of toxins.

RESTORATION OF ELECTROCHEMICAL BALANCE:

Fulvic acid restores electrochemical balance to your metabolic system as a donor of minerals and acceptor of otherwise unusable mineral exchange organic (SED), sometimes referred to as auxono substances are areas such as renal and splenic regions, chronic inflammation and inflammatory disease, thus dramatically reducing inflammatory stress throughout the body.

Fulvic acid assists the transport of beneficial metals and according to Dr. Daniel Ruitz, who heads toxic studies, is in fact a toxicologist, an adaptogen and handles it all medicinal functions.

DAILY DOSAGE:

30 mg daily dose of fulvic acid which is 1/30 of the percent of 27 other toxic heavy metals, becomes non-reactive and is non-toxic to the human body even in big doses! Effectively lowering inflammation throughout your body.

It's the smallest biological molecule, almost nanoparticle able to generate positive energy transfer of electrical energy from your body's electrical charge to every part of biological chemistry of your cells while balancing your bioelectric potential (making your cells more permeable) and reorganising the various molecular bonds of biological ion-exchange in the regeneration of cells in the normal biological state.

FIGHTING CHRONIC DISEASE:

- It has been reported by users who claim that they get fewer colds, the influenza infection doesn't last long, and with fewer fevers. Feeling good should not be keeping the flu/influenza at a distance.
- Alleviation of symptoms of cancer after this regime, yet no evidence of cancer can be treated.
- Fluoride is clear as the point that the cancer cells are no longer even active.

BENEFITS NOTED BY DR. KUHN:

- Anti-inflammatory.
- Immuno-boosting.
- Anti-inflammatory, interactive, supportive and adaptive nature of the body's benefits from fulvic acid, while simultaneously regulating hormonal functions.

DISCLAIMER:

FULFIXER™ Fulvic Acid is a natural food supplement, therefore no medical claims are made about this. No claims are for medicinal purposes and is a purely nutritional supplement, intended to support your overall health and well-being. FULFIXER™ Fulvic Acid supplements are designed to support optimal health through a balanced diet and healthy lifestyle.
