Rainy Days

Activity pack for July 18, 2022

Rainy Day Fun

Supplies: container, paper, wooden craft sticks, glue/tape, embellishments, ribbon, stickers, list of activities

1. Find a container to decorate. You can use a 20oz soda bottle cut down, a plastic jar, an aluminum can or even an old coffee mug! Glue or tape paper (construction, scrapbook or printer paper your child decorated) around the container. Glue on the "Rainy Day" cutout or create your own. Add embellishments such as stickers, buttons, ribbons, jewels and such around the container.

2. Cut out each activity from the list and glue onto the end of the wood craft sticks. You can include some of your own or add more activities.

3. Put all your sticks in the container, and when there's a "Rainy Day", randomly pick a stick and have fun!

Stay dry with these books!
