MINIM WORKPLACE

PRODUCT GUIDE

Uhuru Design is the Brooklyn-based New American furniture design firm specializing in high-end commercial and tailored residential furniture. Founded in 2004, Uhuru gained attention for its sustainable approach, utilizing reclaimed and found materials through a narrative design process. This design approach generated collections in the Smithsonian and Brooklyn Museums among many others, positioning Uhuru at the forefront of the New American Design movement and contributing to popularizing the “Brooklyn” aesthetic. Uhuru scaled from bespoke residential to mass office furniture, evolving with the growing New York and West Coast startup and commercial real estate scenes, embracing the “resimmercial” office aesthetic—connecting the home, office, and spaces in between. Uhuru focuses on delivering accessible design to mission-driven clients across residential, hospitality, fast casual, office, co-working, architecture, and interior design landscapes.
