

# Take and Make: Pride Bracelet

## Take and Make Kit Includes:

- Pony beads
- Elastic jewelry string
- Paperclip

## Additional Materials Needed:

- Scissors

## Instructions:

1. Secure the paper clip to one end of the elastic jewelry string. This will prevent the beads from falling off as you are stringing the bracelet.
2. Form a lineup of beads according to your color order preference.
3. Begin stringing the pony beads one-by-one onto the elastic string.
4. Once all desired beads have been added, while holding the open end of the bracelet, gently remove the paper clip from the opposite side.
5. Tie multiple knots using both ends of the string to secure the bracelet in place.
6. Finally, use scissors to cut off the excess ends of elastic string. Be careful when cutting to avoid cutting the knots you created.
7. Wear your new bracelet with pride!

# Sparkle with pride!
