Demographics

Table 1	Page 1	Q1. A person with a disability is an individual who has a physical or mental impairment that limits a major life activity and/or interaction with the world around them. This includes physical, sensory, cognitive, and intellectual impairment, mental illness, and various types of chronic disease. Do you, or does anyone in your household currently meet this criteria or identify as living with a disability? (Check all that apply)
Table 2	Page 2	Q2. In your experience, in the past have you ever encountered any barriers, obstacles or hardships to receiving healthcare treatment and/or care?
Table 4	Page 3	Q4. would you be willing to share with us your primary concerns about the topic of end-of-life care? This is, what troubles you about the process you and/or that your loved ones will need to go through when making decisions about end-of-life care for those who may be close to death? End-of-life care includes hospice, palliative, and medical aid in dying. (Check all that apply)
Table 5	Page 4	Q5. Medical aid in dying is a medical practice that allows a terminally ill, mentally capable adult to request from their doctor a prescription for medication they can opt to self-administer in order to die peacefully. They must have a prognosis of six months or less to live. In the United States, medical aid in dying is authorized in ten states and the District of Columbia. Medical aid in dying laws include safeguards intended to protect patients from coercion and abuse. Do you agree with the statement that medical aid in dying should be legal for terminally ill, mentally capable adults who chose to self-ingest medication to die peacefully?
Table 6	Page 5	Q6. Have you utilized telehealth to meet your medical care needs? Telehealth is the use of digital information and communication technologies to access health care services and manage your health care remotely.
