Apples

Activity pack for October 3, 2022

Paper Apple

Supplies: Strips of colored paper, brass fasteners, green leaf, single hole puncher, scissors

1. Pick up a strip of colored paper and overlap the ends so it creates a circle.
2. Using the hole puncher, create a hole through both ends.
3. Then pinch the bottom part of your circle to find the center of the strip of paper. Unpinch it and punch another hole there.
4. Use the hole puncher to make a hole on the flat edge side of the leaf.
5. Stack up the colored strips of paper and insert one brass fastener through the center hole.
6. Open the brass fastener to secure the paper strips.
7. Fan out the colored strips of paper so they make a circle.
8. Place the green leaf on the second brass fastener and then start threading the ends of the colored strips on to it.
9. Once all the strips have been added to the second brass fastener open it to secure the apple shape.

These books are delicious!
