Sonder Medicare Is Ending — Here's What That Means

If you have a **Sonder Medicare plan**, it will **end on October 1**.

You **won't lose** your Medicare, but your plan will **change**.

You'll be moved into **Original Medicare** by the government.

Here's the problem with that:

- You might pay **more money** out of your own pocket
- You may **lose your doctor**
- Your **medicines might not be covered**
- It does **not include** dental, vision, or hearing

- There's **no limit** to what you might have to pay

But don't worry — you still have time to choose a **better plan**. This guide will show you how.

What Happens on October 1

Starting **October 1**, here's what will happen:

- Your **Sonder plan will go away**
- You'll be placed into **Original Medicare**
- You may have **no drug coverage** (Part D)
- Your doctors may **not accept** your new plan
- You could pay **20% or more** for every visit or test

This change happens **automatically** unless you act now.
