ENHANCING LEAD FIRM STRUCTURE FOR YOUTH EMPLOYMENT IN UGANDA

Private Sector Foundation Uganda (PSFU) is partnering with Mastercard Foundation to anchor the Young Africa Works strategy in Uganda through the intervention; Enhancing Lead Firm Structure for Youth Employment in Uganda.

Project Objective:

The intervention's ultimate goal is to create 300,000 dignified and fulfilling work for young women and men in Uganda.

The intervention focuses on creating, maintaining, and sustaining growth in job markets through strengthening the capacity of value chain actors to efficiently produce and sell their goods and services in expanded markets, developing new diversified financing mechanisms as well as growing the capacity of business leaders and their support service providers to manage and expand their enterprises.

The Lead Firm Structure Approach:

The Lead Firm Structure approach is anchored on organizing many value chain actors around a final buyer for their output. This approach responds to production and productivity capacity and market access challenges that currently constrain households and Micro Small & Medium Enterprises' survival and growth opportunities.

A Lead Firm can either be an organization driven by private interests such as profit or one whose purpose is furthering shared prosperity through the promotion of private enterprise/business

The Lead Firm Structure approach will be implemented in selected high-growth sectors, which include: Agriculture, Manufacturing, Trade and Allied Services, Tourism, and Construction.

COVID-19 ECONOMIC RECOVERY AND RESILIENCE RESPONSE PROGRAM (CERRRP)

Background

Private Sector Foundation Uganda (PSFU) is partnering with Mastercard Foundation to implement immediate relief, recovery and resilience interventions under the COVID-19 PSFU Response Project. The intervention complements the efforts of the Government of Uganda in controlling the spread of COVID-19, support the government to develop a Post COVID-19 Economic Recovery as well as a Growth Strategy. Besides, the project will augment the survival, recovery and resilience of enterprises impacted by the negative economic effects of COVID-19.

Project Goal & Strategic Objectives

The project is designed to contribute towards national efforts on safety and business recovery and resilience in the face of the COVID-19 Pandemic.

The program has the following strategic objectives;

- Increase capacity for prevention and testing of COVID-19 in Uganda.
- Enhance the Capacity of Institutions involved in health, quality and standards management.
- Support the recovery of enterprises from the negative economic effects of COVID-19 and increase their resilience to future shocks.
- Support government to develop and implement a post-COVID-19 Recovery and Growth Strategy.

Project Targets/Expected Outputs

- ❖ Procure 30000 test kits & assorted PPEs for MoH
- ❖ Product certification & enforcement (health, safety & foods) under UNBS
- ❖ Self-Regulatory Improvement System Plus (SQIS+) + e-learning platform under UHF
- ❖ An ERP Suite + OTT e-commerce platform for PSFU
- ❖ 200 MSMEs supported
- ❖ Private Sector Post COVID-19 recovery & growth strategy

Young
Africa
Works

ENHANCING LEAD FIRM STRUCTURE FOR YOUTH EMPLOYMENT IN UGANDA

Private Sector Foundation Uganda (PSFU) is partnering with Mastercard Foundation to anchor the Young Africa Works strategy in Uganda through the intervention; Enhancing Lead Firm Structure for Youth Employment in Uganda.

Project Objective:

The intervention's ultimate goal is to create 300,000 dignified and fulfilling work for young women and men in Uganda.

The intervention focuses on creating, maintaining, and sustaining growth in job markets through strengthening the capacity of value chain actors to efficiently produce and sell their goods and services in expanded markets, developing new diversified financing mechanisms as well as growing the capacity of business leaders and their support service providers to manage and expand their enterprises.

The Lead Firm Structure Approach:

The Lead Firm Structure approach is anchored on organizing many value chain actors around a final buyer for their output. This approach responds to production and productivity capacity and market access challenges that currently constrain households and Micro Small & Medium Enterprises' survival and growth opportunities.

A Lead Firm can either be an organization driven by private interests such as profit or one whose purpose is furthering shared prosperity through the promotion of private enterprise/business

The Lead Firm Structure approach will be implemented in selected high-growth sectors, which include: Agriculture, Manufacturing, Trade and Allied Services, Tourism, and Construction.
