

Learning Outcome 1

Demonstrate an understanding of the anticipated benefits and complexities of dualling the A9 road for people living and working along the A9 transport corridor and in the Highlands and Islands

Assignment questions

Answer both the following questions to meet the criteria for this LO.

1. Why is it deemed necessary and desirable to upgrade parts of the A9 road between Perth and Inverness to dual carriageway?
2. What are some of the main anticipated benefits and some of the complexities of the A9 Dualling Programme for those living and working along the A9 transport corridor and more widely in the Highlands and Islands?
