

KICKBRICK CARD GAME RULES

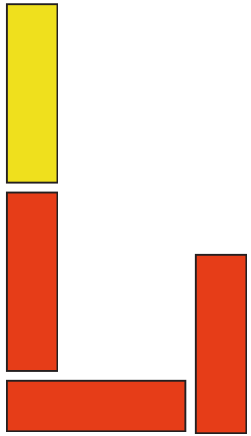

Ages 5- 105 / 2-5 players

**There are so many ways to play with Kickbricks but why not try this one...
Download & print the sheets below, cut out the cards, shuffle them & then get 2 -
5 players together.**

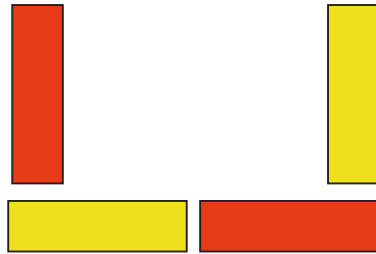

**Each player gets 8 bricks (4 of each colour) 1 player picks a card at random
(without looking) then turns it over. All players have 5 seconds to examine the
card, then it is turned back over & the players have to build what they saw on the
card. The first player to complete building what they think they saw bangs the
table & the game is paused. The card is turned back over & if the build matches the
card that player is the winner. If it does not match that player is out & the game
continues until there is a winner.**

**There are 2 difficulty levels in 2 Kickbrick pack colours PLUS a blank set to create
your own games.**
