Introduction

The exhibitors at this event are attending because they want to talk to you about their companies and what they offer in the way of opportunities, as well as to encourage good applicants to apply to them. This is an excellent opportunity for you to meet and talk to top recruiters.

Making the most of the event

Start by reading through all of the Fair Guide. Have in your mind some preliminary thoughts on which organisations you want to approach first, but then use the opportunity to explore further. Be open to new ideas. Consider asking the representatives about some or all of these issues:

- The nature of the work and its attractions
- Particular strengths of the firm
- Likely developments in the company's areas
- Selection criteria and methods of recruitment
- Training and development

We hope you enjoy the event and get as much out of it as you can.

Access more Careers Events and job opportunities:

<https://brookes.jobteaser.com/en>

Please give us feedback on how you found the Fair

Your views are important to us and help us improve the fairs each year!

Prepare for the Fair

Open Conversation Starters

It can be daunting to be part of a networking event or careers fair, especially starting up a conversation, so here are a few ideas to get you started.

Training and development:

How will you be developed as a graduate?

Are there opportunities to gain further qualifications?

Their experiences:

What is it like to work for that organisation, and why did they choose this company/role?

What do they wish they had known when they were applying for jobs?

How did they reach their current role?

The industry and the business: Where can I find out more information?

What developments are arising within the industry?

Are they an SME or large corporation (99.8% of UK employers are SMEs)

Skills and attributes needed:

What key skills are they looking for?

What makes a candidate stand out?

Ask about the work:

What opportunities are available?

Tell me about the day-to-day activities.

Experience and applications: What sort of experience do you like graduates to have?

Do you offer any work experience/internship/placement opportunities?

What's the best way to apply? Any tips for the application process?

These employers have travelled to campus to speak to you. Take this opportunity to show your interest and convey a positive attitude. By being courteous and friendly from the get-go; relaying your enthusiasm and being yourself throughout, you'll convey professionalism, positivity and confidence.

Top tip - Showing an interest is a key part of networking, demonstrated by active listening / nodding / asking questions.

First impressions count

- Body language makes up 55% of communication, so before you approach the employer they may already be drawing some initial conclusions about you based on things like your posture.
- The calmer you are, the more confident your body language will be, and the employer will pick up on that.
- A smile and regular eye contact are positive signs of engagement.

Update your CV

Make sure your CV is up to date, error free and ready to tailor to the roles you plan to apply for after the event.

Read the Application Guide for tips and good examples, then contact Careers to get your CV checked.

To make the most of the opportunities on offer at a Careers Fair

- Download the Fair Guide to find out who is attending and what roles are on offer. Speak to companies as you can and find out what opportunities they have available.
- Try to find out people's names and ask to connect on LinkedIn
- Take notes as you go so you can remember important details and names.
- If you are struggling with confidence, please come and talk to the Careers Desk who will have a buddy available to assist you.

Introduce yourself

Prepare a short introduction about yourself (for example: name, degree subject / year of study you are in and a question about what careers they are offering).

Careers will have a stand at each of our Fairs - talk to us if you need further support, or email us at careers@brookes.ac.uk

Hoare Lea

Business Sector: Engineering - Built Environment

Hoare Lea is a human-centric and planet-conscious engineering consultancy. We offer intelligent and sustainable solutions to complex design challenges for the built environment throughout the UK and further afield.

We provide a wide range of engineering and consultancy services, including acoustics, air quality, building services (MEP), fire, lighting, security and sustainability to name but a few. Together, our highly skilled teams use technical expertise and problem-solving skills to bring buildings to life. We ensure that whatever the building, its design is outstanding, and its operations meet the needs of the communities it serves.

We are recruiting: Graduate Scheme, Placement Year, Full-Time, Internship

Recruitment timeline: Applications open mid-September and close early 2026

Location: UK wide - Oxford office

Contact us: <https://hoarelea.com/careers>

Find out more: <https://hoarelea.com/careers>

OWL Building Control Solutions Ltd

Business Sector: Building Control

OWL Building Control was established in 2014, since then the business has gone from strength to strength by building many successful partnerships with architects, contractors and developers.

With its headquarters in Newbury and experienced surveyors operating throughout the south and east of England, OWL Building Control Solutions is a Building Control Body specialising in the provision of a building control service for architects, builders, developers and homeowners. Our vision is to provide a high quality, ethical, client focused building regulations compliance service, which encourages collaboration, openness and a forward-thinking approach. We have a lifetime's experience in the industry with outstanding technical knowledge and with track record of delivering on agreed levels of service.

We are recruiting: Full -Time

Recruitment timeline: Application opening October 25 and Closing April 26

Location: Newbury

Contact us: johnpalmer@owlbcs.co.uk

Find out more: <https://owlbcs.co.uk/careers>

**Business Sector:** Built Environment

tor&co is a planning, design, and environmental consultancy with a human focus. People are at the core of every tor&co project. We believe that when we consider what they need, how they think, feel, and behave, we uncover the potential to not just meet, but to exceed expectations. We pride ourselves on building long-term relationships, so that together with clients, communities, and partners, we realise our mission to build a lasting legacy.

For us, collaboration breeds creativity. We believe that collaboration breeds creativity and that thinking creatively will always result in better solutions. By working alongside our clients and partners, calling on the expertise of our colleagues, and consulting the communities for which we create, we arrive at better outcomes for people, the planet, and all its ecosystems.

We are recruiting: Graduate Scheme, Placement Year, Full-Time, Part-Time

COMPLETE CONSTRUCTION PARTNER

Business Sector: Construction

Stepnell is a leading regional contractor, a complete construction partner with proven end-to-end project lifecycle expertise. We serve a broad spectrum of private and public sector clients, ensuring they realise their vision by providing a more holistic approach to project design, build, management and delivery. We are an established, mature business with the resources and infrastructure to deliver larger, more challenging projects generally up to £25 million.

We are ambitious and continue to grow our business; but despite our stature, we remain a family business at heart. We combine the focus and accessibility of a regional contractor, with a depth of technical competency, professional capability and national reach usually reserved only for larger organisations.

We are recruiting: Graduate Scheme, Placement Year, Full-Time: Trainee Site Managers and Trainee Quantity Surveyors

Recruitment timeline: Closing date for applications is 31st January 2026

Location: Rugby, Warwickshire

Contact us: careers@stepnell.co.uk

Business Sector: Engineering

Within the Army, there are roles in the Royal Engineers and other specialist units that focus on construction, infrastructure development, and project management. These roles involve designing, building, and maintaining essential infrastructure, both in the UK and overseas, which aligns closely with the skills and knowledge gained in Built Environment courses.

Additionally, the Army provides training and development opportunities in areas such as civil engineering, architecture, and environmental management, which may be of particular interest to students in this field. These roles not only allow individuals to apply their academic knowledge but also offer the chance to develop leadership, teamwork, and problem-solving skills in a dynamic and challenging environment.

We are recruiting: Full Time, Part Time Engineering, logistics

Recruitment timeline: All year round recruitment

Location: Worldwide

Contact us: Call the recruitment office on 01865 515989
