Nuova terapia per tumore

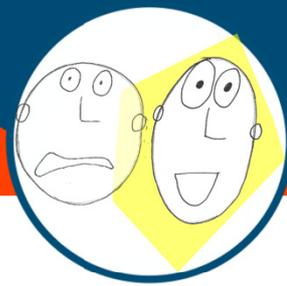

Roma, un gruppo di ricercatori e di medici, ha scoperto una terapia per fermare il tumore al seno, prima che arrivi alle ossa.

Questa terapia usa degli anticorpi per fermare l'avanzamento del tumore maligno verso le ossa.

Anche se negli anni è molto diminuita la mortalità per il tumore maligno al seno, sono ancora tante le vittime. Nel 2020 sono state circa **12300**. I medici che hanno scoperto questa terapia sperano che nei prossimi anni questo numero continui a calare.

Zia Rosa

Quando ci hanno detto che ero stata promossa

eravamo tutti felici ,

poi mi hanno fatto una gran festa

Anche un giornale locale scrisse che una donna

è riuscita a prendere la licenza di terza media .

all'età di 57 anni !

Così io sono stata felice

perché il mio sogno nel cassetto si è avverato

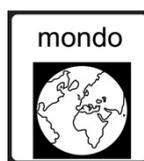

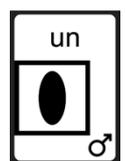

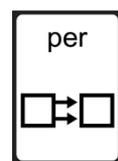

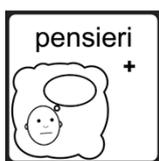

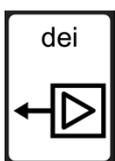

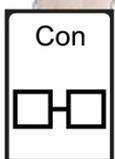

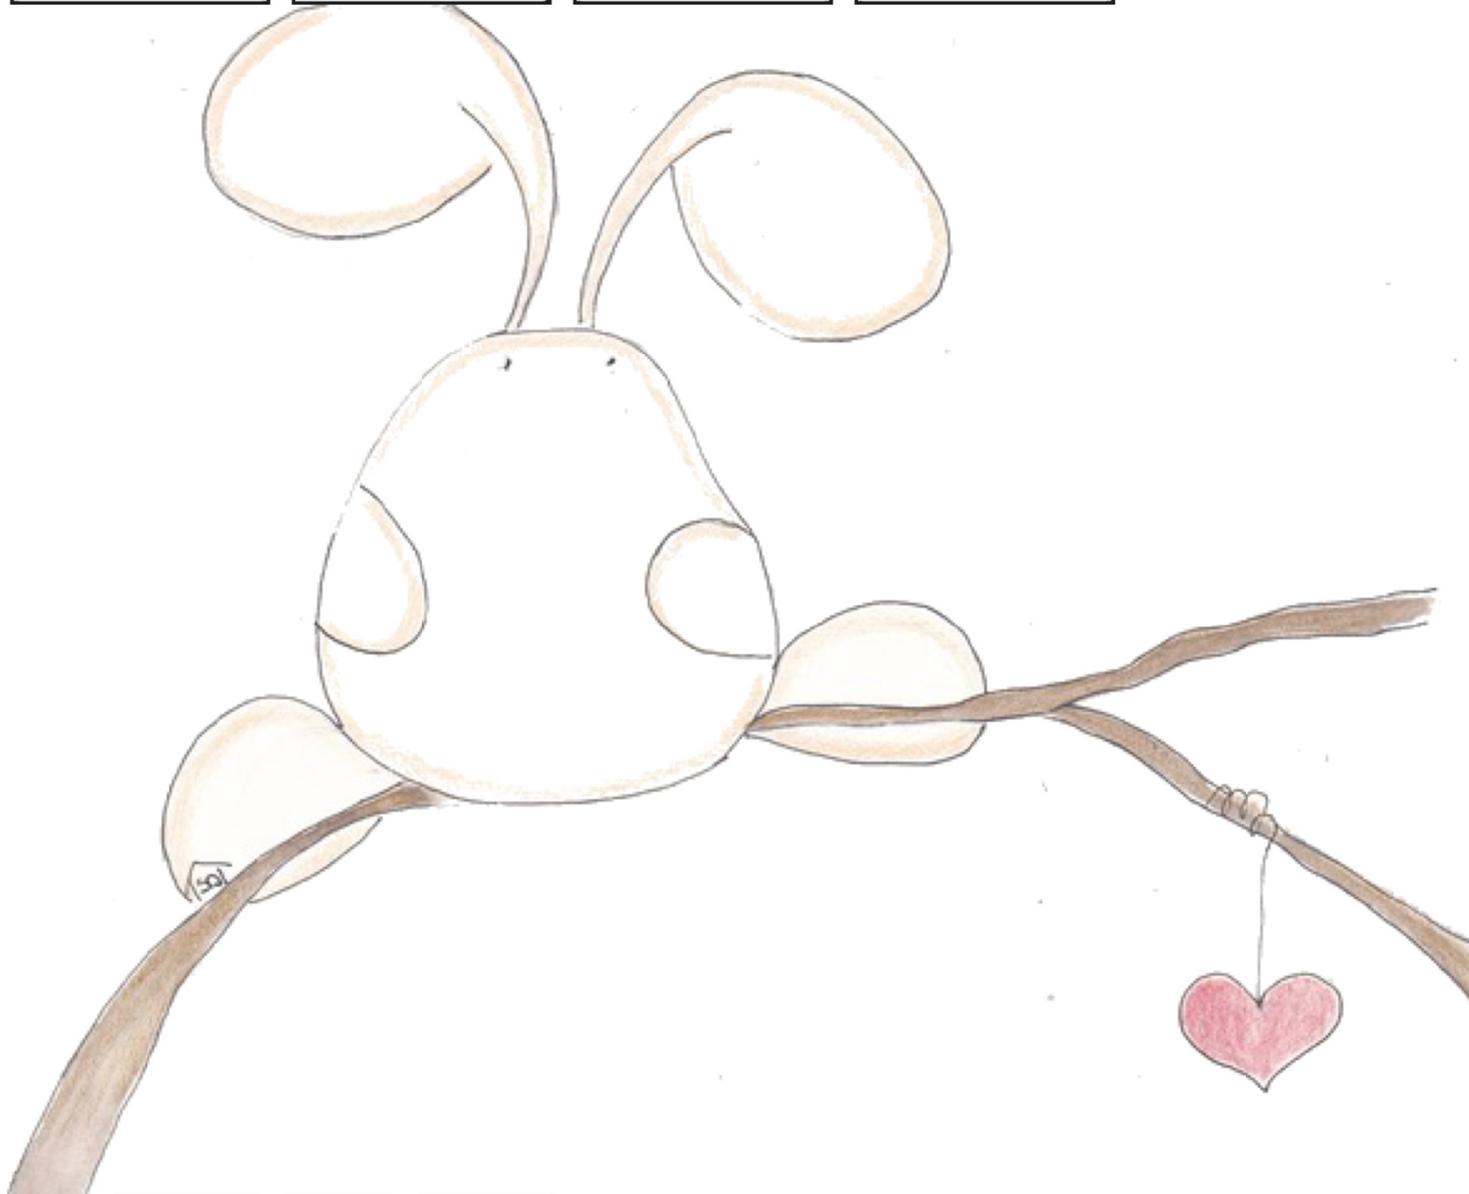

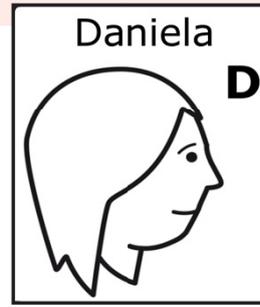

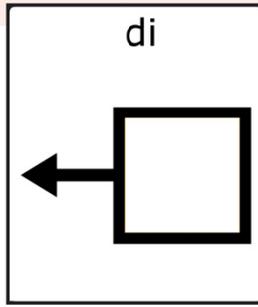

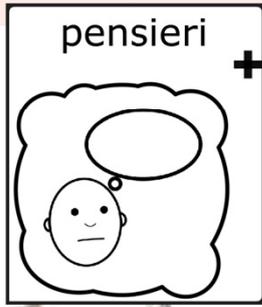

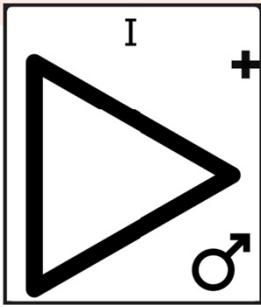

con il mio impegno ,

e con l'aiuto

dei miei familiari

che hanno creduto in me

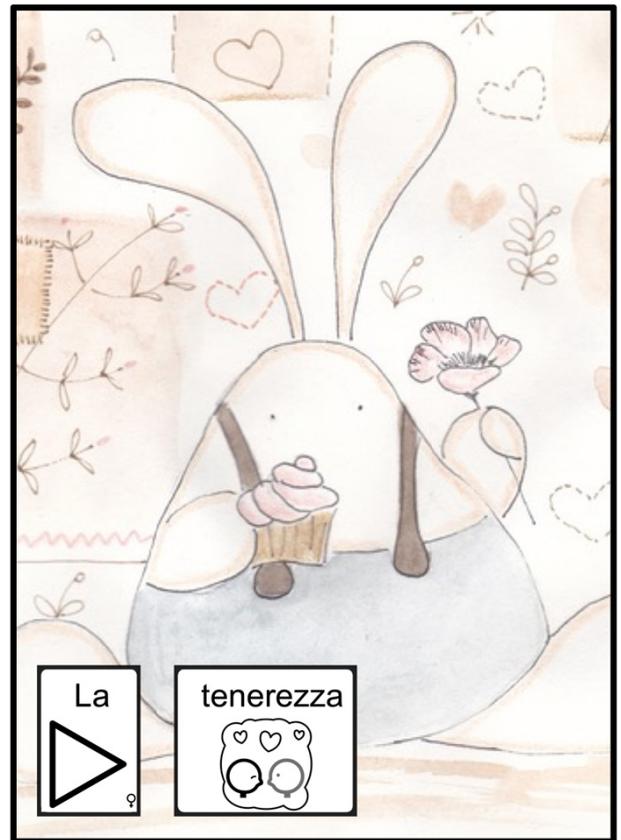

Il
